

*Palo Verde High School*  
**Technology Drive**

December 4th-22nd

**We are looking for Technology to be Repurposed, Reused, or Recycled for Palo Verde Students**

**A big big thank you to you in advance!**

PVHS Technology Drive sponsored by The Advocates Club

Hey Panthers...there is a growing need in our school community for students to have constant access to electronic devices that allow them to complete their school work in Google Classroom or check their grades on Infinite Campus. It is true that here at Palo Verde High School many students are blessed with the newest technology, but it is also true that many students struggle with their academic success because they lack basic technology for use at home.

---

So, we are putting out an “all call” to our Palo Community to search through your desks and drawers for technology such as stand alone computers, iPads, Chromebooks, laptops, SmartPhones, etc that are sitting around collecting dust and donate them to be cleaned up and repurposed for use by Palo students who need them in order to meet the demands of current curriculum and fulfil their dreams of graduation. Donations can be dropped off in the front office with Ms. Tracy on or before December 22nd. If you plan on claiming your donation for tax purposes, you must complete the Receipt of Gift form at the time of drop-off.

Together we rise!

Sincerely,

*Rebecca A. Hunt*
